

What Now God? is a twice monthly time to pray for the work and ministry of the church in these villages. It is an open meeting; we hope you can join us.

Spearhead is a time for Christians across the area to come together to worship and pray for revival HERE!

Midweek Communions open to all in the parish, not just residents of the venue. Do join us.

PCC meetings open to all on the church Electoral Roll, but to vote you have to be an elected member, unless there is an open vote at the meeting. Do join us if you can.

APCM = Annual Parochial Church Meeting to which all those on the Church Electoral Roll are encouraged to attend and have the right to vote on issues arising at that meeting. We hope you can join us for this important meeting.

Please pray for these events/meetings before and after they take place, especially if you are unable to attend.

Further editions of this may be produced with different events etc as the year progresses.

Our Vision Statement:

"Together in these villages we offer Christ's healing grace through worship and service."

Together

Every single person in the community is important.

Villages

The people who live in the villages of this Parish.

Christ's grace

Offering His unconditional love through physical, emotional, and psychological healing, to everyone whether or not we find them easy to like.

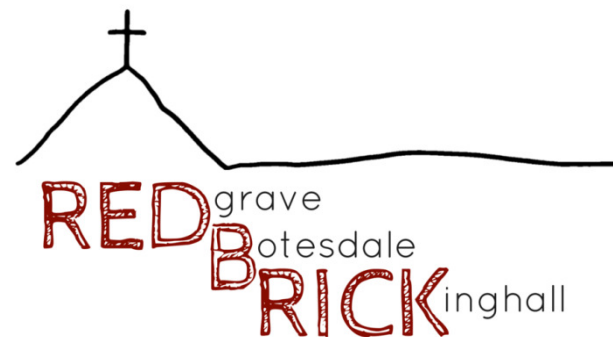

Worship

Individual, flexible worship, from the structured and formal to freer forms of service offering a safe, supportive and loving environment.

Worship is to be understood as how you live your daily lives as well as what goes on in church buildings.

Service

Helping and supporting others, praying for and with them, listening to God in seeking His will for the wider community not just the church family.

Parish Diary 2016
